FOR IMMEDIATE RELEASE

NOTICE REGARDING WATER LINE FLUSHING

During the period between January 28, 2019 and February 1, 2019, the City of Fort Bragg Public Works Crew will be flushing water lines. This will take place in various dead-end streets throughout the City. Lines will be flushed during the normal workday, between 7:30am and 4:30pm.

Lines are flushed to clean and maintain the quality of the water lines, to inspect fire hydrants, and to maintain water pressure.

When crews are flushing, you may experience a slight discoloration of the water in your household. This discoloration does not indicate that the water is unsafe but may have a displeasing appearance.

If you experience discoloration of your water, run COLD water from your tap for a few minutes or until clear.

Questions regarding this information should be directed to Heath Daniels, Lead Water Treatment Operator at (707)-813-8031.
